**STRENGTH**  
YOU CAN DEPEND ON!

**MASABA**

1617 317th Street - PO Box 345, Vermillion, South Dakota 57069 USA, [www.masabainc.com](http://www.masabainc.com), 877-627-2220 or 605-624-9555

**BENEFITS OF MASABA**

Our Portable 3 Bin Feed Plants are built with the same strength and toughness you expect from all of our equipment. The Masaba Strong Tri Axle Chassis (1) makes this plant completely portable and easily maneuverable around your operation and the 36" Collection Conveyor or the optional four Individual Bin Discharge Conveyors (2) with CEMA C Idlers and 3-Ply Belting will make for easy, reliable unloading of your bins. The four 1/4" Mild Steel Hoppers (3) are built to last and are secured to the chassis with square steel tubing (4).

REVISION December 2013

NOTE: SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE: Because MASABA, Inc. may use in its catalog & literature, field photographs of its products which may have been modified by the owners, products furnished by MASABA, Inc. may not necessarily be as illustrated therein. Also continuous design progress makes it necessary that specifications be subject to change without notice. All sales of the products of MASABA, Inc. are subject to the provisions of its standard warranty. MASABA, Inc. does not warrant or represent that its products meet any federal, state, or local statutes, codes, ordinances, rules, standards or other regulations, including OSHA and MSHA, covering safety pollution, electrical, wiring, etc. Compliance with these statutes and regulations is the responsibility of the user and will be dependent upon the area and the use to which the product is put by the user. In some photographs, guards may have been removed for illustrative purposes only. This equipment should not be operated without all guards attached in their normal position. Placement of guards and other safety equipment is often dependent upon the area and the use to which the product is put. A safety study should be made by the user of the application, and, if required, additional guards, warning signs and other safety devices should be installed by the user, wherever appropriate before operating the products.
