*Shown with Feed Conveyor Removed for Travel*
A page from a brochure promoting the benefits of Masaba Portable Crushing Plants. The text describes the toughness and features of the plants, including a Heavy Duty Wide Flange Beam Chassis, Upper and Lower Access Platforms, a 42" Feed Conveyor, and other specifications. The brochure also includes images of the plant and its components, such as the 48" Discharge Conveyor, Upper and Lower Access Platforms, and Wide Flange Beam Chassis. The text notes that specifications are subject to change without notice and that actual weights may vary based on axle configuration, options, etc.
